

Compact system for commercial refrigeration

Tewis Mini NS21

Extremely compact CO₂ units with a footprint of less than 1m² for refrigeration and freezer applications from 18 to 45kW. The design ensures easy access to all components for quick and easy maintenance.

Customised design for optimised transport and handling

GRT-414_3	100.3	EC fans	2	34	3,690	1,284	1,600	426

Selection criteria: 33°C ambient temperature (pressure 96 bar)

OTHER OPTIONS

GM.104-0	Installation of manual by-pass valves (HP and FG)			
CH.112-1	Installation of pressure gauges (compressed gas pressure, suction gas pressure and liquid vessel pressure)			
CE.109	Higher resistance of switching components up to 25kA			
CE.123-C	Electronic HP and FG display (Carel)			

Tewis is a leading and innovative company in the design and development of refrigeration systems. Besides its expertise in operating elements (such as control systems), Tewis offers comprehensive total solutions for refrigeration and air-conditioning applications. In recent years, Tewis has also focused on the development of CO₂-based refrigeration systems.
