

## Go for "Your Daikin World": Unique Experience Centre for solutions for each climate need opened in Vienna

**With "Your Daikin World" Daikin Central Europe opened a new location for co-creation in Austria. It is an open space where new climate solutions for hotels, retail, offices or large commercial applications can be experienced and the entire heating, cooling and air conditioning industry is invited for a vivid exchange.**

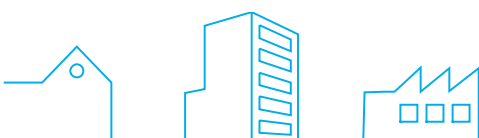

**Vienna, August 2021** – “Your Daikin World” at Daikin Central Europe’s headquarters in Vienna is unique in Europe. Customers, partners and stakeholders can experience innovative solutions for each climate need – either live or by augmented reality. Nearly the entire Daikin product portfolio is available for training purposes in the included Training Center, and a new Conference Area offers plenty of space for inspiring co-working-sessions and workshops together with industry experts.

### Experience innovation

"As an innovation leader, we set new standards not only with our products. Your Daikin World makes climate solutions very tangible for customers and partners, especially in the planning period of new buildings or the refurbishment of existing locations. We want to inspire with new ideas and become the preferred partner for co-creating a unique climate for customers, partners, planners, architects, stakeholders and further interest groups such as students from all our 16 markets in Central and Eastern Europe. Your Daikin World is open for the entire HVAC-R-industry in order to shape our future together," says **Carl Lievens, Managing Director of Daikin Central Europe.**

The Japanese manufacturer's innovative experience centre consists of three main areas:

- Solution Area
- Trainings Center
- Conference Area

## Co-create

- In the **Solution Area**, every aspect of the industry is covered. A wide variety of rooms showcase tailor-made solutions and use-cases for hotels, offices, retail or private homes. Thanks to impressive augmented reality features, Daikin products and solutions are presented in a very tangible way.
- The **Training Center Area** provides a state-of-the-art training environment and is unique in Central Europe. Almost the entire Daikin product portfolio is available for installers and distributors to deepen their knowledge and skills in consultancy, installation, maintenance as well as monitoring in order to exceed Daikin units life-time.
- The **Conference Area** offers plenty of space for co-creation for a vivid exchange within the industry through workshops, conferences or exclusive meetings with Daikin experts.
