

## Daikin's "United Beyond Cold" approach showcases full cold chain solutions at Chillventa 2024

Brussels, Nuremberg, October 2024 – Daikin Europe, a global leader in refrigeration and cold chain solutions, is set to make a significant impact at **Chillventa 2024**, the premier international trade fair for refrigeration and cold chain. From **8<sup>th</sup>-10<sup>th</sup> October 2024**, Daikin will not only present a comprehensive suite of cold chain solutions but will also spotlight its strategic vision for the future of refrigerants. With a robust lineup featuring products from its renowned brands – Zanotti, Tewis, Hubbard, and AHT – Daikin continues to solidify its position as a **one-stop provider for all cold chain needs**, embodying its theme, **“United Beyond Cold.”**

At Chillventa 2024, Daikin will unveil several advanced cold chain solutions designed to meet the diverse needs of the market, with a focus on environmental sustainability and energy efficiency.

Regarding **HORECA**, the priority is the changes created by the F-Gas regulation, which will accelerate the move towards natural refrigerants. Daikin will display its Monoblock range based on refrigerant R290, including the new ceiling-mounted Monoblock LMC. This unit uses unique inverter technology, offering up to 40% greater efficiency compared to a typical ON/OFF model.

For **food retailers**, AHT will launch the groundbreaking plug-in refrigeration & freezing chest unit ‘Kigali’, utilizing the natural refrigerant R290. This product sets a new standard for plug-in units and will be presented to the public for the first time. Additionally, Daikin will display its complete solution offerings for CO<sub>2</sub> remote and Semi Plug-In applications by combining the solutions of different brands such as AHT, Daikin, Hubbard, Tewis and Zanotti. This includes products such as:

- The AHT SPI pump station, a heat recovery unit for the ‘Vento’ and ‘Borea’ water loop cabinets, which can be combined with Daikin heat pump units.
- The compact CO<sub>2</sub> large size unit Nova58+ from Tewis.
- the new CO<sub>2</sub> Cascade from Hubbard, a low temperature booster unit which can be connected to Daikin CO<sub>2</sub> Zeas and CVP units and
- Daikin's innovative CO<sub>2</sub> Conveni Pack.

Another focus will lay on the growing Semi-Industrial and Industrial Refrigeration applications, such as **food processing and logistic centres**. Tewis will display their ‘Mini Smart Duplex’ multi compressor rack with the unique Eco2Smart+ technology, offering the best efficiency in the market. Zanotti will showcase their prototype of Seasoning Unit with low GWP (Global Warming Potential) solutions, and, last but not least, Hubbard will present the Industrial Monoblock with low GWP solutions.

Throughout the event, **Daikin and its cold chain brands** will host a series of presentations at their stand, providing in-depth insights into the latest products and services. During the exhibition, new products will be launched, and visitors can attend presentations covering various topics related to Daikin’s Cold Chain product and solution range.

Visitors will also have the opportunity to explore how these innovations can be tailored to meet specific needs across the Daikin, AHT, Tewis, Zanotti, and Hubbard product ranges.

### [Presentations on Daikin’s Refrigerant Strategy](#)

In addition to showcasing innovative products, Daikin will present at the **Chillventa Specialist Forum**, offering insights into how refrigerant challenges in the heat pump, air conditioning, and refrigeration markets can be addressed in an affordable, safe and future-proof way.

Join Daikin at the **Chillventa Specialist Forum** on the **8th of October at 11:00** in Hall 8 / 8-516 and at the **Daikin Cold Chain booth** on the **8th of October at 16:00** in Hall 7 / 7-150.

### [United Beyond Cold: A Vision for the Future](#)

Reflecting on the overarching theme of “United Beyond Cold,” **Olivier Lagrabette, Department Manager of Cold Chain at Daikin Europe**, commented, “At Chillventa 2024, we are not just showcasing

products. We are highlighting the strength of our holistic approach. ‘United Beyond Cold’ represents the collaboration of Daikin’s companies – AHT, Zanotti, Tewis, and Hubbard – in delivering comprehensive cold chain solutions and exceptional service. This unified approach ensures we not only meet the diverse needs of our customers with innovative products but also provide unparalleled support and service, driving excellence throughout the cold chain industry.”

### Daikin’s stand at Chillventa (Messe Nuremberg) 2024

- From 8th-10th October 2024
- Booth 7-150
- Hall 7

### About

#### 100 years Daikin

The story of Daikin has always been shaped by groundbreaking ideas, technological innovations, and dedicated people. It began in 1924 when the young Japanese engineer Akira Yamada founded an enterprise in Osaka to manufacture aircraft radiators with a 15-member team. Today, 100 years later, the Daikin Industries Ltd. group brings **future-proof solutions for heating, cooling, ventilation, air purification, and refrigeration to global markets**. More than 98,000 employees in 175 countries continue the company's legacy of leading technologies to advance low carbon heating and cooling, while ensuring the highest level of comfort. For its fiscal year 2023 the global Daikin Group reported a record sales result of € 28 billion sales (1 April 2023 – 31 March 2024).
