

New Daikin FWF-D 600 x 600 fan coil ceiling-mounted cassette comes with open communication protocol

This game-changer in **commercial climate control** boasts a **new open communication protocol**, enabling seamless integration with other commercially available controllers for greater flexibility and a wider range of specification choices. The FWF-D unit also offers a range of benefits, making it an **eco-friendly and efficient choice for cooling and heating** simple to install.

Vienna, February 2024 – Commercial spaces such as **offices, hotels, or retail shops** can be heated and cooled with this new solution, providing optimal comfort: Based on the brushless direct current (BLDC) fan motor, the solution delivers precise operational control with a four-way air discharge for **maximum airflow** and a **cooling capacity from 2kW – 5kW**. The advantage of the open protocol also lies in the easy integration of third-party controllers. Additionally, the energy consumption has been reduced thanks to the FWF-D brushless direct current (BLDC) fan motor and drain pump.

More benefits

- As a **two- or four-pipe configuration**, the new FWF-D cassette can be supplied with **two- or three-way on/off valves** – available as an option or factory fitted on the unit.
- **Thermal insulation** as standard accessory is designed to fit the shape of the valve for simpler fitting.
- **Low-sound performance** makes the FWF-D cassette an ideal solution for **working environments and shared spaces**.
- Supplied as standard with an 835mm lift, the drain pump increases flexibility while **reducing installation times**.
- Carrying through the high design standards that have earned Daikin global recognition, the new FWF-D fan coil cassette unit **fits into a standard 600 x 600mm architectural module**.

Cassettes are available with a standard BYFQ60B3 air diffusion panel or alternatively as a fully flat decorative panel (requiring an additional adaptor) in a white (BYFQ60CW) or a silver/white color combination (BYFQ60CS) for maximum concealment and style.

More information

The FWF-D Fancoil cassette is available to order now. For more information visit https://www.daikin-ce.com/en_us/products/product.html/FWF-D.html
